What is ITSM?
ITSM aims to align the delivery of IT services with the needs of the enterprise.
The focus of ITSM tools is to deliver satisfactory service to the end-user.
The full form of ITSM is IT Service Management.
Managing IT in an organization through delivering it as a service.
ITSM is a combination of a set of defined policies,
process, and methods for delivering IT products and services.
It improves and supports customer-centric IT services.
ITSM is business-aligned and maintains a holistic Service Lifecycle approach.
