**Objectives:**

- Introducing Innovation Frameworks
- Encouraging Creative Thinking
- Understanding the Innovation Ecosystem
- Highlighting Opportunities
- Showcasing Success Stories
- Fostering Collaboration
- Developing Skills
- Encouraging Participation

**About the Topic/ Activity:**

On July 29, 2024, Dr. V. Jagadish, Head of the Civil Engineering Department and convener of PVPSIT's Innovation Council, led an Innovation Induction Program specifically organized for all first-year B.Tech students by the Freshman Engineering department. This important session was designed to underscore the critical importance of innovation within the field of engineering. Dr. Jagadish highlighted how innovation drives progress and problem-solving in engineering disciplines, encouraging students to think creatively and embrace new ideas.

The program aimed to inspire and motivate the new students by showcasing the impact of innovative thinking on technological advancements and real-world applications. Dr. Jagadish also shared examples of groundbreaking projects and success stories from the Innovation Council, demonstrating how innovative approaches have led to significant breakthroughs. The session included interactive discussions and activities to engage students and stimulate their interest in pursuing innovative solutions throughout their academic and professional careers. This induction was a key step in preparing students to become forward-thinking engineers capable of contributing to future technological advancements.
