DESIGN THINKING WORKSHOP

Design thinking has a human-centered core. It encourages organizations to focus on the people they're creating for, which leads to better products, services, and processes. When you sit down to create a solution for a business need, the first question should always be what's the human need behind it?

By employing design thinking, we pull together what's desirable from a human point of view with what is technologically feasible and economically viable. It also allows those who aren't trained as designers to use creative techniques, methods, and mindsets to address a vast range of challenges.

In this workshop the students of UIF, Dhanya Sree Tottempudi, III CSE S3, 20501A05G9; Sri Chandan Vallabhaneni, II CSE S3, 21501A05G6; Veenaa Sree Sai Namana, III CSE S3, 20501A05D0; Naga Raghavendra Pilli, III CSE S3, 20501A05E7 along with faculty champion Mr A. Prashant, have trained almost 180 II B.Tech I Sem CSE students, to inculcate design thinking methodology, which helps them to be a successful Entrepreneur. The event was organised in the first floor Seminar hall in the Afternoon Session on October 31st 2022.
